**Required*

Important Notice Regarding Water Service Capacity Requests

Requests for water service capacity must include the **signature of the legal property owner** in order to be reviewed. Without this approval, the request will be considered incomplete and will not be processed.

Both the **legal property owner** and the **applicant** (if different) will be notified upon receipt of the completed request form. No response or evaluation from HLWA will be issued until this confirmation step is completed.

Please note the following:

- This document serves **only to determine whether HLWA has the capacity to serve** the parcel listed on this form.
- This **is not an application for water service**. If water service is desired, a separate application must be submitted along with the appropriate fees and documentation.
- An indication that capacity is available **does not guarantee** the provision of water service. All applicable **federal, state, local, and regulatory requirements** must still be met, including permitting and code compliance.
- HLWA's response to this request is **valid for 90 days** from the date of issuance.
- Requests are reviewed in the order received, and responses typically take **three (3) weeks or more**, depending on complexity and volume.

We appreciate your patience and understanding as we thoroughly evaluate each request to ensure responsible and sustainable water service planning.

Office use only

Application Number: _____

Hauser Lake Water Association:

- ☐ Has the capacity to service this parcel
- ☐ **DOES NOT** have the capacity to service this parcel
